

The screenshot shows a Python IDE interface with the following details:

- File Bar:** File, Edit, Selection, View, Go, Run, Terminal, Help.
- Toolbar:** Includes icons for file operations like Open, Save, Print, and a Launchpad icon.
- Code Editor:** Displays Python code for a screenshot tool. The code includes methods for saving screenshots as PDF and JPEG files, and discarding them. It uses PyQt5 for GUI elements like a preview window.
- Terminal:** Shows command-line output from running the script. The output indicates the screenshot was taken and the preview window terminated successfully.
- Bottom Status Bar:** Shows the current file is "Screenshot-Tool.py", the line number is 381, and the column number is 18.
